

About The Sensory-Inclusive Access Symbol

Whenever you see the Sensory-Inclusive symbol, you know that the event or performance is specially designed and adapted to provide for an inclusive experience for individuals of all ages and abilities including those with Sensory Processing and Autism Spectrum Disorders (ASD).

The Sensory-Inclusive symbol features an umbrella to represent all Sensory Processing Disorders as well as inclusiveness, and integrates puzzle pieces to symbolize Autism Spectrum Disorders (ASD). The symbol is intended to be used in marketing and promotional materials in the same way as other standard access symbols, such as the wheelchair or American Sign Language (ASL) access symbols.

Using the Sensory-Inclusive symbol to promote a cultural activity, event, or performance indicates that the advertised program will provide accessible accommodations and appropriate modifications for individuals with Sensory Processing and Autism Spectrum Disorders (ASD).

The Sensory-Inclusive access symbol was developed by the **Miami-Dade County Department of Cultural Affairs** and is being made available on this site to encourage others to explore and offer these inclusive opportunities to their communities.
